Why are you receiving this statement?

Because the amounts billed for your escrowed items may change over time, we review your escrow account at least annually to ensure there will be enough money to pay for these items. Once the review is complete, you are provided this statement detailing our review. This is also known as the annual escrow account disclosure statement.

A review of your escrow account has been completed

Here's what we found:

- **Required minimum balance:** Good news! Your escrow account balance is projected to remain at or above the required minimum balance.
- Any surplus over \$50 must be returned to you unless your account is past due. Any surplus under \$50 will be spread to lower your monthly payment until used.

	Current Payment	New Payment
Principal & Interest	\$667.03	\$667.03
Escrow/Impound	\$268.52	\$260.17
Overage Spread	-	\$0.00
Total Payment Amount	\$935.55	\$927.20

Your escrow account has a surplus of:

\$1,044.48

Starting **July 2025** your new mortgage payment amount will be:

\$927.20

Here's a summary of what is projected to change

	Prior Projection	New Projection	Months	Total Monthly	Change (%)
Property Taxes	\$1,288.45	\$1,288.45	÷ 12	\$107.37	0.00%
Property Insurance	\$952.00	\$952.00	÷ 12	\$79.33	0.00%
Optional Insurance	\$0.00	\$0.00	÷ 12	\$0.00	0.00%
Mortgage Insurance	\$899.52	\$881.64	÷ 12	\$73.47	(-2.00%)
Overage/Shortage	-	\$0.00	÷ 0	\$0.00	-
Total Escrow	\$3,139.97	\$3,122.09	÷ 12	\$260.17	(-1.00%)

*If the prior projection is shown as \$0.00 please refer to the Initial Escrow Disclosure received at closing or please refer to the final escrow disclosure you received from your prior servicer. To determine the new projected escrow payment, we add the projected escrow items to be paid over the next 12 months. We base these projected amounts on any escrow items that may have been paid in the past and any future anticipated payments to be made. We then divide the total amount by 12 payments to determine the base escrow amount. The chart above includes actual payments for your escrow items and any shortage identified during our review.

Projected escrow account activity over the next 12 months

If your account is in the process of "a service transfer", or "being service transferred", your overage may be processed by your new servicer.

Your calculation is below:

Lowest projected escrow balance (December 2025)	\$272.92	Calculated using Projection Table below
Minimum balance for the escrow account*	\$373.41	Calculated as: \$186.71 x 2 month(s)

Escrow Surplus**\$1,044.48**

* Your minimum balance includes a cash reserve or cushion as permitted by Federal and State regulations, to help cover any increase in taxes and/or insurance. To calculate the cash reserve for your escrow account, your yearly escrow payments are added up and the total is divided by 12 (this amount does not include mortgage insurance). That amount is then multiplied by two, or the number of months as allowed by state laws and/or the mortgage contract to determine the cash reserve.

The following estimate of activity in your escrow account from 7/25 to 6/26 is provided for your information. All payments we anticipate receiving as well as disbursements we anticipate making on your behalf are included, along with the Projected Escrow Account balance, derived by carrying forward your current actual escrow balance. The required Escrow Account Balance displays the amount required to be on hand as specified by Federal Law, State Law, or your mortgage documents, and may include a cushion of up to 1/6th of your Annual Disbursements. Please retain this statement for comparison with the actual activity in your account at the end of the next escrow account computation year.

What is an escrow account?

An escrow account is an account that a loan servicer establishes and controls on behalf of the borrower to pay obligations such as property taxes and insurance premiums on time. These obligations can include:

Real Estate taxes | Property (homeowner's) insurance | Mortgage insurance (if required by investor) | Flood Insurance

What is an escrow analysis?

An escrow analysis itemizes all payments from and contributions to your escrow account on an annual basis. This is done to make sure the amount of your monthly payment is adequate to pay all escrow obligations on time. This analysis also determines whether any overages or shortages exist in your escrow account after all scheduled payments and disbursements.

How is the lowest projected balance point determined?

The lowest monthly escrow balance during the year projection is the low-point. Your escrow account balance is projected for a twelve-month period with the assumption that we receive regular payments and make scheduled disbursements.

Why did my monthly mortgage payment change?

- Homeowner's insurance: Your premium may be different as a result of changes to the type, extent, date due, or rate of your insurance coverage. Additionally, if you made any changes to your homeowner's insurance policy or insurance company this would affect the initial projections in your escrow account. We encourage you to contact your insurance company for any questions regarding changes to your homeowner's insurance premiums.
- Real Estate Taxes: Your real estate taxes may be different as a result of your property being reassessed or if the tax rate has changed. Anticipated tax payment time frames may change per local authority as well. We encourage you to contact your local taxing authority for any questions regarding changes to your real estate taxes.
- New Construction: A difference may occur with partially assessed real estate tax bills for new construction. Typically, the first tax bill for new property is only for the lot/land. We may have received a bill for the fully assessed value which includes the land and the house.
- Initial Escrow Deposit: Escrow is sometimes estimated at loan closing because information may not be available at the time. If the amount collected for the setup of your escrow account was more or less than the actual bills received for real estate taxes and/or insurance premiums, this will cause your monthly mortgage payment to change.

Why do you collect a cushion?

Based on federal law, lenders may require a minimum balance requirement or 'cushion' of up to two months of the total annual escrow disbursement amount. The cushion funds cover unexpected or increased disbursements or disbursements made before the funds are available in the borrower's escrow account. Once you pay off your loan, any funds held in the escrow account for your cushion will be refunded to you.

How did you determine my required starting balance?

Your required starting balance is determined by calculating what your balance would need to be as of today to prevent the escrow balance from falling below the minimum required balance (cushion) over the next 12 months. This is purely a mathematical calculation.

What is an escrow account shortage?

Shortages occur when we disburse more than what was projected. This is usually because your tax or insurance rates have increased but unexpected disbursements may also contribute to shortages.

What if I want to pay my escrow shortage in full?

The repayment option allowing for payment over 12 months for shortages that are greater than or equal to one month's escrow account payment is derived from federal regulations governing escrow shortages and deficiencies. Although a lump sum payment is not a required option, we will allow for it upon customer request. If you would like to repay your shortage in a lump sum, you may do so using one of the payment options below.

What if I want to pay my escrow shortage in less than 12 months?

The repayment option allowing for payment over 12 months for shortages that are greater than or equal to one month's escrow account payment is derived from federal regulations governing escrow shortages and deficiencies. Although paying in less than 12 months is not a required option, we will allow for it upon customer request. If you would like to repay your shortage in less than a 12-month period, please contact our Customer Care Center.

What payment methods can I use to repay my escrow shortage?

- If you'd like to pay the shortage in your escrow account online, please log in to your account and schedule a payment.
- If you'd like to pay the shortage in your escrow account by phone, please call us (a processing fee may apply).
- For additional ways to pay, see your monthly billing statement.

What if the shortage causes a financial hardship and I cannot afford the increased payment amount?

Please call our Customer Care Center right away, and we'll be happy to discuss options that are available to you.
